

## CLIENT & CANDIDATE TESTIMONIALS

**Here's what one of our candidates has to say about us...**

### **Candidate D**

"I've had a lengthy relationship with Marketplace and it is true to say that from a temp's point of view, you and your staff have proved immeasurably better than other agencies I have worked for, treating me with respect, sensitivity and professionalism at all times.

It is easy to feel like 'just a number' in these relationships, as agency staff concern themselves only with clients and not candidates - I have never felt patronised in this way by your firm, and it is to your great credit that this is the case.

I hope it is evident to your clients that your approach to employee relations endows them with a better 'product' than your competitors offer.

In my career in future, I would have absolutely no hesitation in recommending you to both employers and candidates".
